

## MWB 25D Net Weigh Double

### Automatic Gravimetric Filling Machine Grain Bag Packing machine

- Weighing, filling and packing within 6 seconds.
- Weighing, filling and Conveying by one-touch.
- Suitable for 5 to 25 Kg weigh bag (30-50Kg optional)
- Minimum Machine space integrated control panel.

- Highly Accuracurate electronic load cell.
- Easy to operate 7" TFT Color touch screen.
- Account management by Printer\* output.
- 3" External display for enhanced visibility.

## Specification

Model	MWB 25D (Net Weigh Double)
Weighing Materials	Free Flow Grain
Weighing Method	Load cell - Coarse, Fine & Super Fine feed)
Weighing Range	5kg - 50kg (75Kg - 100Kg - optional)
Weighing Accuracy	0.1% FSD
Packing Capacity	800-900 bags/hour
Control method	Built in Micom
Packing Materials	Jute, PP, Non woven and Paper
Bag size	Width:195mm-500mm, Height:400mm-700mm
Power Source	3Phase, AC 415V, 2kW
Air Utility	400NL/Minute, 6kgf/sq.cm (Compressor-2.5kw)
Machine Dimension	1110(L) x990(B)x3400(H)
Machine Weight	Approx 650kg
Standard Accessory	Belt Conveyor 3 Meter length
Stitching machine	Single/Double stitch (Optional)

## Feature

User  
friendly  
Color  
Touch HMI

### Preset Option

Operator can select mode without getting into precise setting for different weightment.

### Accept /Reject Indication

Easy elimination of Under/Over weight bags.

### Bag Height Adjustment

Simple hydraulic lever to adjust conveyor height.

### Fault Diagnosis

Built-in self diagnosis function to prevent down time.

### Ethernet connectivity

Remote monitoring of packing progress.

### Lot Production

Easy to fix lot target and count.

### Password Protection

Only authorised person can access and change settings.

### Simultaneous falling

Twin head discharge to get odd packing weights.

### Bag Closure options

Plain / Fold over / Crepe Tape / PP tape closure

## Other Products

- Flow Meter
- To measure/control flow of grains
- To maintain stock in Bins/Silos
- To compute yield
