

MWB 25D

Net Weigh - Single

Automatic Gravimetric
Filling Machine
Grain Bag Packing machine

In Technical
Tie-up with
YDH Korea

- Microprocessor based Gross Weighing System.
- Machine can be fixed on existing storage bin mouth.
- Suitable for free flow granular products
- Weighing, Filling, Stitching and conveying made simple.
- Suitable for 5- 50 Kg weigh Bag (75-100 Kg Optional)
- Highly accurate weigh by two electronic load cell.

Specification

Model	MWB 25D (Gross Weigh -Single)
Weighing Material	Gravity Free Flow granular Material
Weighing Method	Microprocessor based Load Cell
Weighing Range	5 to 50 Kg
Weighing Accuracy	+/-0.1% of FSD
Packing Capacity	200 to 350 Bags per Hour
Bag Size	Width:200 to 500mm & Height:400 to 700mm
Power Source	1Phase 230V, 50 Hz
Air Utility	150NL/Min @6 Kg per Sq.CM
Machine Dimension	600 (W) X 725 (D) X 555 (H)
Machine Weight	100Kg
Optional Accessories	Belt Conveyor and Stitching machine
Stitching Machine	Single/Double

Feature

User
friendly
Color
Touch HMI

The New MWB25D Single Gross Weighing machine is simple to fix on existing storage bin.

Compact design incorporating simple interconnecting flange, Load Cell, Controls, user interface and Pneumatic bag clamping.

Coarse, Fine & Super Fine feeding mechanism arrangement to get accuracy,

Simple push mechanism to change packing machine mouth for small packing.

Material of contact is Stainless Steel and Non contact parts are MS

Entry level packing machine suitable for Low and Medium capacity Rice miller.

Operator can select mode without getting into Precise setting for different weigh bags.

Either existing or new stitching machine with conveyor easily fit to this system.

Other Products Flow Controller

- To measure/control flow of grains
- To maintain stock in Bins/Silos
- To compute yield
